ATAFOM UNIVERSITY

EDUCATION FOR INTEGRATION

ATAFOM University International - Atlantic African Oriental Multicultural - is an international university founded by the Initiator, Visionary, Founder and President of ATAFOM University International, Dr. Sakir Yavuz, with the aim of creating a borderless and cosmopolitan university to improve the educational offer for the world as a whole. As a global university, ATAFOM University International promotes the ideals of cross border education and with its information offices and branches on the five continents of the world, ATAFOM university will provide education for young people interested in studying from different countries of origin, regardless of geography, culture, skin colour, gender, social status or religion, so that these young people have equal opportunity to education.

Due to the international orientation of ATAFOM University International, all courses are conducted in English and currently 100% online.

At ATAFOM University International, we want to offer an educational system based on mentoring that not only aims at learning through expanding knowledge or developing skills, but is also aimed at forming a positive, cosmopolitan attitude to life. The whole educational concept of ATAFOM University International is based on the highest international standards in order to exceed all expectations and educational goals of our students when they choose ATAFOM University International as their educational institute.

"The success of every action begins in the head."

FOUNDER & PRESIDENT

ATAFOM UNIVERSITY INTERNATIONAL

"The success of every action begins in the head."

Helped him pave a way to create the university offering an inclusive education. He is firmly convinced that the children of this world with different cultural backgrounds and countries of origin as well as languages should have the same right to education. He has set himself the task of giving young people access to university education of the highest international quality and with equal opportunities, in the conviction that success requires permanent concentration, strong motivation and extreme commitment.

At ATAFOM University International, "Education for Integration" is developed, taught and lived. The team of internationally renowned professional teachers and experienced staff at ATAFOM University International will meet the highest international standards and will do everything possible to meet and exceed all of our students' expectations and educational goals as they embark on undergraduate studies or learn the English language when they enroll in ATAFOM Language Academy.

The digital innovation and knowledge campus of ATAFOM University International - ATAFOM Online Campus, which accommodates everyone who is willing to learn, makes it possible to create educational bridges between all continents.

ATAFOM UNIVERSITY COURSE OFFERINGS **BACHELOR COURSES OFFERINGS**

**Academic Year
2024/25**

Welcome to ATAFOM University - Empowering Minds for the future

At ATAFOM University International, we are confident and believe that education is a potential and driving societal progress. Our mission is to provide world-class academic programs, cutting-edge research opportunities, and a supportive learning environment that fosters intellectual curiosity, creativity, and critical thinking worldwide.

Academic Excellence

Our faculty comprises renowned experts in their fields, dedicated to delivering high-quality instruction and mentorship. We offer a range of undergraduate and programmes across various disciplines.

Courses Offered

At ATAFOM universities, we offer a wide range of Bachelor's and other certificate courses.

Our Bachelor Programs to choose from:

- **Bachelor of Arts in Media and Communication (B.A.) at the Faculty of Arts**
- **Bachelor of Arts in International Business Development (B.A.) at the Faculty of Economics**
- **Bachelor of Science in Information Technology (B.Sc.- IT) at the Faculty of Information Technology**
- **Bachelor of Science in PreIPO (B.Sc.) at the Faculty of Initial Public Offering**

15 IT CERTIFICATION COURSE OFFERINGS

Explore our best IT certification courses today:

1. Basics of Python
2. Basics of AutoCAD
3. Basics of Graphics Designing
4. Basics of Backend Development (Using Django)
5. Basics of Blockchain
6. Basics of Data Analysis
7. Basics of Java
8. Frontend Development: Level One: Beginner
9. Frontend Development: Level Two: Intermediate
10. Frontend Development: Level Three: Advanced
11. Frontend Development: Level Four: Expert
12. Database and SQL
13. Generative AI for Everyone
14. Deep Learning and Neural Networks
15. Basics of Software Engineering Principles

FACULTY OF INITIAL PUBLIC OFFERING CERTIFICATION COURSES OFFERINGS

The Faculty of Initial Public Offering at ATAFOM University International brings you multiple PreIPO certification programs along with the Bachelor of Science in PreIPO (B.Sc.).

The certification programs begin every month. Find your best match here -

Research and Innovation

ATAFOM University is committed to advancing knowledge and driving innovation through research. Our state-of-the-art research facilities and collaborations with other partners provide students with opportunities to engage in cutting-edge projects, develop new technologies, and address real-world challenges.

Our Classes

We offer online classes, providing a conducive learning environment that inspires academic excellence, creativity, and socialization. Our online classes come with dedicated support staff to provide timely assistance, enabling students to balance learning with other responsibilities.

Global Connections

We foster global partnerships with reputable institutions across continents. This enables students to participate in exchange programmes, internships, and collaborative research projects. Our alumni network spans the globe, providing opportunities for professional networking and lifelong connections.

Student Life

At ATAFOM University, we believe that education extends beyond the classroom. We offer a range of extracurricular activities that cater to diverse interests, promoting personal growth, leadership development, and social responsibility.

Scholarships and Financial Aid

In our effort to ensure everyone is educated irrespective of their backgrounds, we offer various scholarships, grants, and financial aid options to support students in achieving their academic goals.

Career Development

Our career services team provides guidance on job search strategies, resume building, and interview preparation. We also host industry events, job fairs, and networking sessions, connecting students with potential employers and mentors across the globe.

If you are looking for a transformative educational Centre, join ATAFOM University International to get yourself prepared for success in an ever-changing world. Apply now and become part of a vibrant institution that values knowledge and excellence.

Technology

HOW CAN ARTIFICIAL INTELLIGENCE ENHANCE CYBERSECURITY IN MODERN BUSINESS ERA?

By Sahar Hashmi

AI is gaining popularity at a fast pace in today's digital world. However, when it comes to cybersecurity, it is used by cybercriminals to indulge in framing cyberattacks. Just as there are two sides of a coin, AI is significant for cybersecurity due to its ability to quickly analyze large amounts of data and detect patterns that may indicate a security threat. That is why AI-powered cybersecurity systems are designed to learn and improve over time, making them more effective at identifying and mitigating potential risks. These systems are capable of automating certain tasks, such as threat detection and response, which can free human analysts to focus on more complex security issues.

Today, we shall learn how AI can help identify and respond to emerging threats in real-time, which is critical in today's rapidly evolving cybersecurity landscape.

Let us first briefly define the two terms - AI and Cybersecurity.

Defining ARTIFICIAL INTELLIGENCE and CYBERSECURITY

AI, or artificial intelligence, refers to those computer systems that can perform tasks that typically require human intelligence, such as learning, problem-solving, and decision-making. AI has various applications, from speech recognition and image processing to autonomous vehicles and predictive analytics.

Cybersecurity, on the other hand, refers to the practice of protecting computer systems, networks, and data from unauthorized access, theft, damage, or disruption. Cybersecurity involves a range of measures, including firewalls, encryption, access controls, and threat detection and response.

As AI becomes more prevalent in various industries, it can be leveraged by businesses to enhance their cybersecurity measures by detecting and responding to threats in real-time.

How can Businesses Leverage AI to Enhance their Cybersecurity?

Artificial Intelligence can be crucial in enhancing cybersecurity measures for businesses in many ways.

Here are some ways in which AI can contribute to strengthening cybersecurity:

1. Threat Detection and Prevention: AI-powered systems can analyze vast amounts of data in real time to detect unusual patterns and anomalies that may indicate a potential cyber threat to a business. Similarly, machine learning algorithms can learn from historical data and continuously evolve to recognize new and emerging threats.

2. Behavioural Analysis: AI can easily monitor user behaviour and network activities to identify deviations from usual patterns that can be a sign of a security breach or insider threat.

3. Automated Incident Response: AI can automate the identification and response to sudden incidents demanding security, reducing the response time and minimizing the impact of a potential breach.

User Authentication: Businesses can use AI to enhance user authentication processes by implementing multi-factor authentication and biometric recognition, making it more challenging for unauthorized users to gain access.

4. Network Security: AI helps businesses monitor network traffic for unusual activities, identify potential threats, and take preventive actions, such as blocking malicious traffic or isolating compromised systems to protect crucial information.

5. Endpoint Protection: Modern technological advancements have given the world AI-driven antivirus and anti-malware solutions that can detect and prevent malware infections on individual devices within a network.

6. Security: AI can process and analyze large datasets to provide insights into security trends, enabling organizations to make informed decisions and improve overall cybersecurity posture. AI-driven solutions dynamically adjust security measures based on the evolving threat landscape, ensuring that cybersecurity defences remain effective against new and sophisticated attacks.

Conclusion

While AI is a powerful tool for cybersecurity in today's scenario, it should be used with other security measures and human expertise to create a robust defence against cyber threats. Modern businesses must adopt AI best practices and move ahead with a balanced approach to keep pace with new innovative solutions and ensure risk mitigation.

Technology

Elon Musk's company X recently filed a lawsuit against a nonprofit advertising group, resulting in the group deciding to shut down its activities. The lawsuit claimed the group unlawfully conspired to boycott advertising on X's platform. The group, called Global Alliance for Responsible Media (GARM), was a voluntary initiative within the advertising industry aimed at helping brands avoid having their ads appear alongside illegal or harmful content. GARM confirmed that it plans to defend itself in court against the allegations made by X.

Following the lawsuit, GARM released a statement announcing its decision to discontinue its activities due to the distraction and financial strain caused by the recent allegations. The group had over 100 members, and four of them were named as defendants, including CVS, Unilever, Mars, and the Danish energy company Ørsted.

The lawsuit also raised concerns about advertising on X, as some brands had pulled their spending due to worries about their ads being placed next to misinformation or hate speech. The lawsuit, which is still ongoing, and the decision of GARM to shut down its activities could have broader implications for other media watchdogs.

Business

Elon Musk's talk with Republican presidential candidate Donald Trump on platform X was delayed due to technical issues, as many users had trouble joining. During their conversation, Mr Musk asked friendly questions about immigration and inflation, but Trump made unverified claims without challenge.

Mr Musk repeated his support for Trump who is up against Democratic candidate Vice-President Kamala Harris in November's election. He blamed the late start on a cyber-attack, although experts doubt this claim. Trump tried to restart his re-election campaign against Vice-President Kamala Harris entered the presidential race. Mr Musk, known for being influential in politics, has recently supported Trump and become involved in a political committee backing Trump's campaign.

The conversation covered various issues, including the recent assassination attempt on Trump, his desire for the US to acquire an "Iron Dome" missile defence system like Israel, and his views on education and immigration. Trump also spoke positively about Tesla, a car maker owned by Mr Musk. The talk suffered a problematic start as many users struggled to join the live stream. Mr Musk attributed this to a "massive DDoS attack on X," but experts believe a surge in traffic may have caused the disruption.

World

Here are some possible candidates to replace Japanese Prime Minister Fumio Kishida in the upcoming leadership election of the ruling Liberal Democratic Party (LDP):

- **SHIGERU ISHIBA**, 67, a former defense minister and a four-time candidate for party president. He currently leads in public opinion polls but might face challenges in winning over LDP lawmakers.

- **TOSHIMITSU MOTEGI**, 68, the current secretary-general of the LDP, has held various cabinet positions, including foreign, trade, and economy ministers. He is known as a tough negotiator with experience in international relations.

- **SHINJIRO KOIZUMI**, 43, the son of former Prime Minister Junichiro Koizumi, is a former environment minister. He positioned himself as a reformer while being mindful of the party's senior members.

- **SANAE TAKAICHI**, 63, is the minister in charge of economic security. She holds conservative views and previously ran against Kishida in the party leadership race in 2021.

- **TARO KONO**, 61, who also ran against Kishida in the previous party leadership race, currently serves as the digital minister. He is known for his forward-thinking approach to modernizing government technology and has experience as a foreign and defense minister.

- **YOKO KAMIKAWA**, 71, the current foreign minister, brings a low-profile presence to the potential prime minister role. She has a background in the Harvard Kennedy School and previously worked for a U.S. senator.

- **TAKAYUKI KOBAYASHI**, 49, the first-ever minister in charge of economic security, passed critical supply chain legislation. He has experience in finance and previously worked at Japan's embassy in the United States before entering politics in 2010.

History

A 2,000-year-old mosaic has been found at a Roman site in Shropshire during excavations at Wroxeter Roman City near Shrewsbury. The mosaic depicts brightly coloured dolphins and fish discovered while searching for the main civic temple. According to Win Scutt from English Heritage, the excavations were intended to uncover the temple walls, but the discovery of the intact mosaic was unexpected and remarkable. The archaeologists believe the mosaic was likely created soon after the Roman city was established and was probably commissioned by a wealthy and important person. Additionally, coins, pottery, and a painted plaster wall were found alongside the mosaic, helping to date the phases of the city and the activities that took place there.

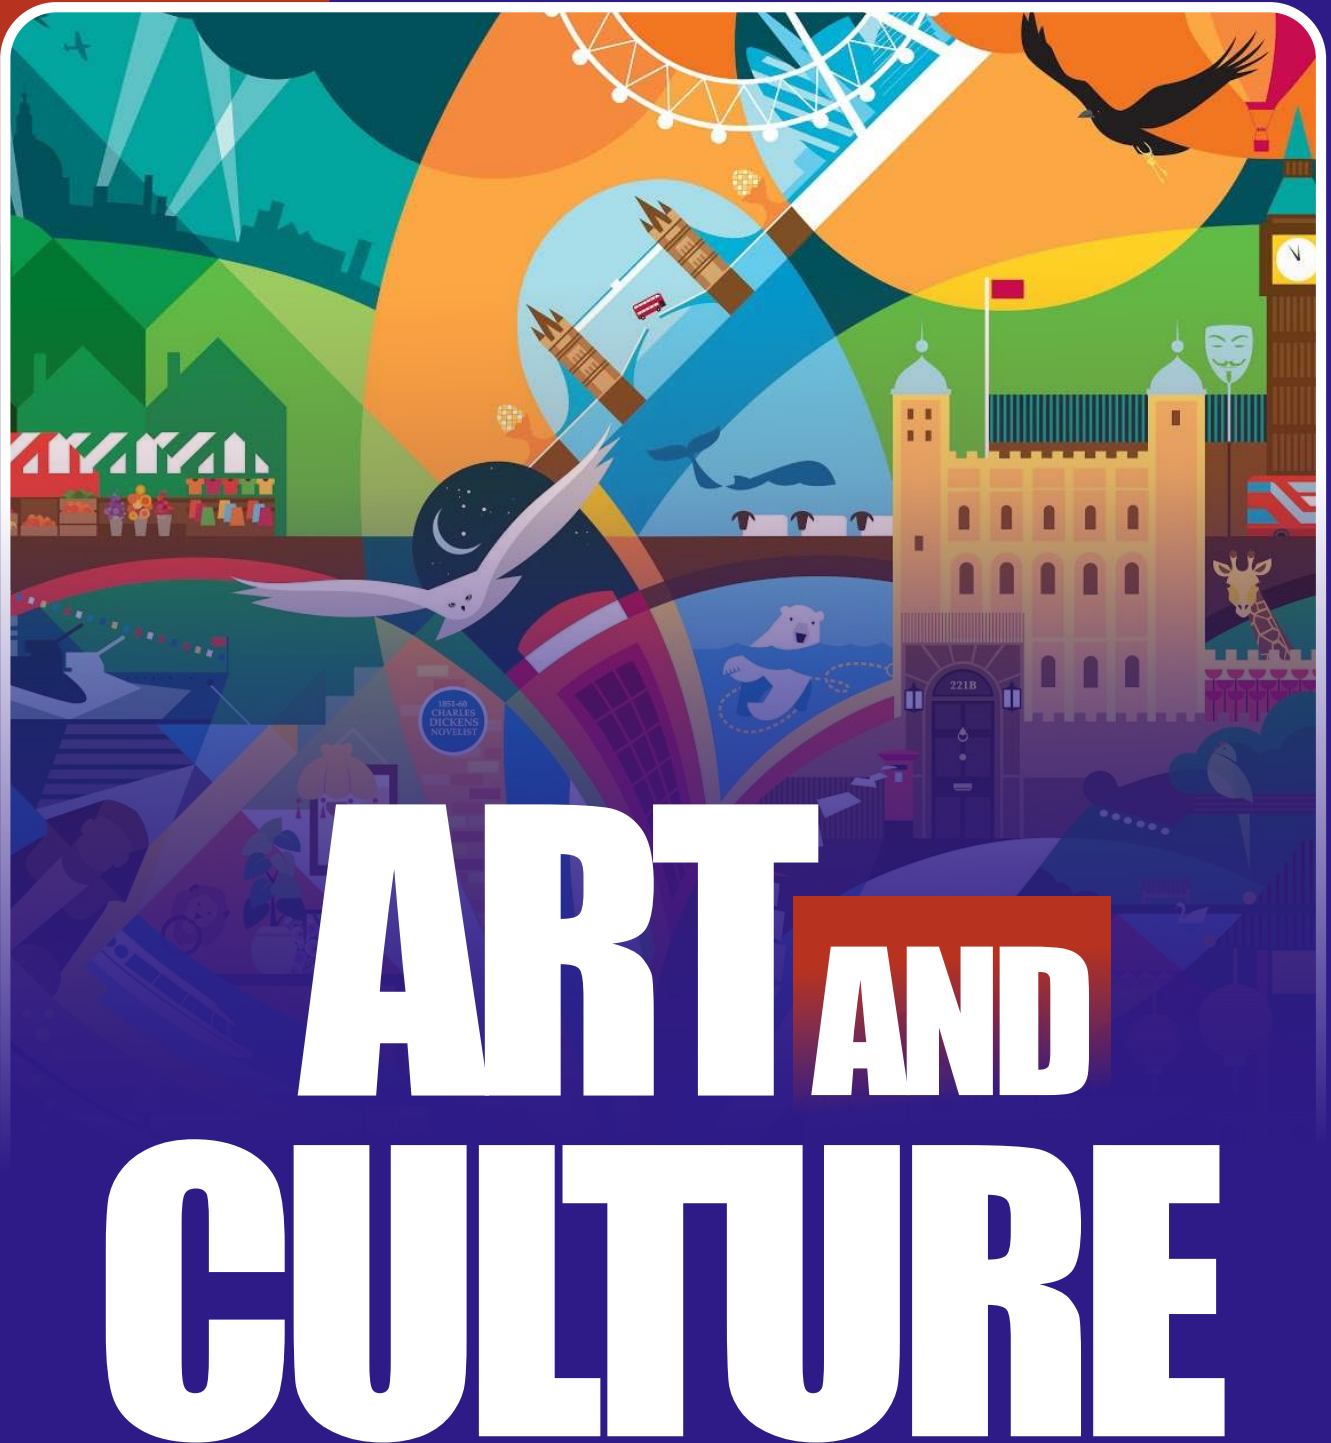

The area of excavation has been reburied to protect and preserve it. Wroxeter Roman City, once known as Viroconium Cornoviorum, was established in the 90s AD and was one of the largest cities in Roman Britain, containing a civic bath house, marketplace, county hall, judicial centre, and over 200 houses. Today, the only remains of the city above ground are several ruined buildings cared for by English Heritage. The excavation was a joint effort by English Heritage, the University of Birmingham, Vianova Archaeology and Heritage Services, and Albion Archaeology. In July, archaeologists found a large monumental building on the city's main road and a shrine or mausoleum that may have honoured an important individual.

Academic

In the summer of 2023, three friends entered the academic job market with the same aim: to secure a faculty position in organizational behavior. Despite competing for the same limited positions, they chose a collaborative and supportive approach. They discussed their fears, frustrations, and setbacks, committing to open communication. By embracing an interdependent mindset and sharing valuable job-market information, they each landed assistant-professor positions. They found that their individual successes expanded their collective network and knowledge base, benefiting all of them in the long run.

COLUMN-
**ART AND
CULTURE**

1. True Detective: Night Country

The fourth season of True Detective is set in a small Alaskan town, where a police chief investigates a series of chilling murders. The show's captivating visuals and engaging storyline draw viewers into a world where modern science meets supernatural beliefs. With its fresh take and eerie atmosphere, this revamped series is a must-watch from start to finish. You can watch it on Max in the US and Now in the UK.

2. Shogun

After Game of Thrones ended in 2019, many fantasy series aimed to take its place, such as Amazon's Lord of the Rings spin-off and HBO's prequel House of the Dragon. Surprisingly, a historical drama set in real-life 17th-century Japan has emerged as a convincing successor. Shogun, based on the historical novel by James Clavell, focuses on a British sailor named John Blackthorne who becomes entangled in a power struggle on the Japanese coast. The show offers stunning visuals, outstanding performances, and unflinchingly brutal scenes. The cast delivers uniformly brilliant performances, and the show's success has prompted plans for two more seasons. Shogun is available on Hulu and Disney+ in the US and Disney+ in the UK.

3. Fallout

A year ago, HBO's The Last of Us broke the trend of not-so-good video game adaptations with an exciting portrayal of the popular action-adventure game. Now, another TV adaptation of a post-apocalyptic game series, potentially even more successful: a visually stunning and cleverly humorous take on the Fallout series. It envisions a world ravaged by nuclear war where some people live in shiny underground vaults. British actress Ella Purnell stars as a bright-eyed Vault 33 resident who embarks on a mission to the Earth's surface to rescue her kidnapped father. In this future Wild West, she encounters a nervous soldier (Aaron Moten) and a bounty-hunting "ghoul" (Walton Goggins) among others. Co-produced by Lisa Joy and Jonathan Nolan, creators of Westworld, it's an impressively immersive experience that stays true to the source material while carving out its unique story. Purnell is a rising star, and Goggins delivers an exceptional performance that spans two timelines. This show is available on Amazon Prime internationally and Netflix.

4. Ripley

Andrew Scott plays the role of the cunning con man Tom Ripley in this adaptation of Patricia Highsmith's novel, The Talented Mr. Ripley. The series is set in Naples and Rome during the 1960s and is visually stunning in black and white, capturing Ripley's intriguing world as he goes from being a small-time swindler in New York to living a luxurious lifestyle. Scott's portrayal effectively conveys the complex layers of Ripley's deceit with just a single glance. The performances by Johnny Flynn, Dakota Fanning, and Eliot Sumner as the people Ripley manipulates are also outstanding. This series is a departure from the 1999 film, offering an enthralling and visually impressive experience, directed and written by Steven Zaillian. It's available for viewing on Netflix internationally.

COLUMN-
**ART AND
CULTURE**

5. One Day

This year, a British romance has captured a lot of attention. The show follows the relationship between two friends, Dexter and Emma, over 20 years, checking in with them on the same day, July 15th, every year. Starting in the 1980s, it's a nostalgic journey for viewers of a certain age, complete with a great soundtrack of popular songs from that time. The standout performances of the two main actors, Leo Woodall and Ambika Mod, bring the characters to life beautifully. Be warned: it might bring some tears if you're not prepared for what happens. The show is available on Netflix internationally.

6. Monsieur Spade

Clive Owen plays the role of Sam Spade, a private investigator who is relocated from 1940s San Francisco to 1960s small-town France. Instead of replicating the tough-guy persona of the character from *The Maltese Falcon*, Owen portrays a shrewd and emotionally cool investigator who sometimes struggles with the French language. The show is filled with complex personal relationships, including a glamorous lover and a young girl who becomes Spade's ward, in addition to murder mysteries in a lush country town with a lingering Nazi presence. Director Scott Frank keeps the show crisp and suspenseful, while Owen brings depth to the character of Spade, revealing him as a man with a heart beneath his cool exterior. The show is available on AMC+ in the US and ITV.

7. Mr Bates vs the Post Office

The brilliant British miniseries that aired earlier this year focused on the national Post Office scandal. More than 700 post office branch managers were wrongly charged for false accounting, theft, and fraud due to a failed computer system. The show had a significant impact, leading Prime Minister Rishi Sunak to announce new legislation to "swiftly exonerate and compensate victims". The four-part drama, created by Gwyneth Hughes, effectively weaves together the personal stories of the victims, including Alan Bates (played by Toby Jones), who led the fight for justice. By contrasting the personal experiences of the victims with the bureaucratic challenges they faced, the show brought attention to the issue. This demonstrates that dramatizations can raise awareness about important topics in a way that documentaries sometimes can't. The hope is that Mr. Bates' story will inspire more TV shows to address institutional scandals of our time. The series is available on PBS in the US and ITVX in the UK.

8. The Regime

Kate Winslet delivers a memorable performance as Elena Vernham, the dictator of a fictional Central European country, in this dark political comedy. Elena presents a mix of humour and chilling behaviour, singing "Santa Baby" in her Christmas address and addressing her citizens as "My Loves." Despite her populist persona, she is ruthless in maintaining power, invading a neighbouring country and imprisoning her political opponents. Winslet's portrayal balances the character's comedic and sinister sides, supported by a talented cast including Matthias Schoenaerts, Andrea Riseborough, and Hugh Grant. The tone is more absurd than sharp, yet the politically tumultuous world depicted reflects our own. The show "The Regime" is available on Max in the US and Now in the UK via Netflix.

Inside ATAFOM University:

An Exclusive Glimpse into Our Faculty and Staff Perspectives

I have had the privilege of working as a React Native Developer at ATAFOM University, collaborating closely with Perfect Timing Technologies (PTT) under the esteemed leadership of Anas Sir and Imran Khan Sir. The Founder and President, Dr. Şakir Yavuz has created an innovative and forward-thinking educational environment at ATAFOM University that focuses on "Education for Integration" and fosters creativity and excellence.

My experience here has been instrumental in refining my technical skills and expanding my understanding of mobile application development. The projects I have worked on are a testament to the synergy between ATAFOM University and PTT, where cutting-edge technology meets educational excellence.

Being part of a University led by such visionary leaders has been both challenging and rewarding. The collaborative atmosphere and the commitment to delivering high-quality solutions have enabled me to contribute meaningfully to the success of our projects.

As a developer, I take pride in crafting applications that are not only functional but also intuitive and user-friendly. The insights and experience I've gained at PTT have been invaluable, and I am eager to continue pushing the boundaries of what is possible in the field of mobile technology.

Jamshed Ali

React Native Developer (Mobile App)

ATAFOM University International **Activities and Events**

How ATAFOM University Activities Transform Lives

ATAFOM University International's activities since its inception have positively affected the lives of many across different continents. The success of these activities was accomplished through the full support of the president and founder of the university, Dr. Sakir Yavuz, a remarkable individual who has demonstrated exceptional kindness and generosity towards the common man to ensuring "education for integration."

Despite being physically far from Africa, his heart and actions have reached out to those in need on the continent. One of the most notable aspects of his philanthropy is his commitment to providing educational opportunities to children from underprivileged backgrounds. He has extended his support to those who have been affected by crises in Nigeria, offering them scholarships to pursue their academic dreams. Through his university, numerous young individuals have benefited from his generosity, gaining access to quality education that they would otherwise have been unable to afford.

This has not only transformed their lives but also empowered them to become positive change-makers in their communities. The founder's selflessness and dedication to helping others are a testament to his character and values. His actions serve as an inspiration to others, demonstrating the impact one person can have on the lives of many.

The scholarships provided by the founder have opened doors to new possibilities for the beneficiaries, enabling them to break the cycle of poverty and achieve their full potential. This, in turn, has created a ripple effect, benefiting not only the individuals but also their families and communities. As a result of the founder's tireless efforts, countless lives have been touched, and a brighter future has been made possible for many. His legacy will undoubtedly continue to inspire and uplift future generations, leaving a lasting impact on the world.

As part of the university's outreach activities, we embark on promotional campaigns to showcase ATAFOM University International to the public, raising awareness about the institution's academic excellence, research opportunities, and range of courses offered. Through these efforts, we connect with prospective students, parents, and partners, providing them with detailed information about our programmed, admission requirements, and the benefits of studying at our esteemed university.

ATAFOM Events

Student Orientation

As part of our events, we hold a comprehensive orientation programme for new students to introduce them to the university's mission, values, and culture. This event is crucial in helping students transition smoothly into university life, understand the academic expectations, and familiarize themselves with the campus resources and facilities.

We engage in students' orientations because we believe it sets the tone for students' academic journey, helps them build connections with peers and faculty, and provides significant information on academic policies, support services, and extracurricular opportunities. Additionally, through the orientation, students can navigate the university's system with confidence, make informed decisions, and maximize their academic potential.

Staff Orientation

As part of our events, we hold a comprehensive orientation programme for new students to introduce them to the university's mission, values, and culture. This event is crucial in helping students transition smoothly into university life, understand the academic expectations, and familiarize themselves with the campus resources and facilities.

We engage in students' orientations because we believe it sets the tone for students' academic journey, helps them build connections with peers and faculty, and provides significant information on academic policies, support services, and extracurricular opportunities. Additionally, through the orientation, students can navigate the university's system with confidence, make informed decisions, and maximize their academic potential.

ATAFOM University: Building the Future

Since its establishment, ATAFOM University International has been dedicated to providing education to everyone, regardless of their background. Our slogan, "Education for Integration," emphasizes our mission to bridge cultural and geographical divides. We have successfully created a platform where students from diverse backgrounds come together to learn, associate, grow, and thrive. This serves a melting pot of cultures, with students from different countries. This diversity enriches our learning environment, promoting cross-cultural understanding and exchange.

To accomplish our mission and vision, our university president and founder, Dr. Sakir Yavuz, has empowered underprivileged students across the region. We are proud to offer scholarships to talented yet underprivileged students, providing them with opportunities to access quality education. This initiative has enabled many to break the cycle of poverty and achieve their academic goals.

As an online university, we have invested heavily to ensure that our institution meets the highest online university standards, revolutionizing the way education is delivered. Our cutting-edge platform is the first of its kind in Africa, reaching a wider audience and making high-quality education accessible to students across the continent and beyond.

The establishment of our university has also created employment opportunities for many people worldwide. We have built a diverse team of faculty members and support staff who share our passion for education and integration.

Our curriculum is carefully crafted to equip students with skills relevant to the modern world, emphasizing critical thinking, problem-solving, and collaboration. Our faculty members are renowned experts in their fields, conducting research that addresses pressing global challenges. We foster a culture of knowledge sharing, enabling students to engage with the latest ideas and innovations.

At ATAFOM University, we believe that education has the power to transform lives and societies. We are proud of our achievements and remain committed to empowering future generations of leaders, innovators, and change-makers.

WORDS OF WISDOM BY THE PRESIDENT

"The only thing that will secure and perpetuate peace in the world is education."

Dr. Şakir Yavuz

These powerful words from ATAFOM University's Founder and President Dr. Şakir Yavuz captures the essence of our university's mission, 'Education for Integration.' In a world often divided by differences, education stands as the most

effective tool to bridge gaps, foster understanding, and build lasting peace. It is through education that we equip individuals with the knowledge and empathy needed to transcend cultural, social, and ideological boundaries. It is only through the transformative power of education that we can secure a future where harmony and mutual respect prevail.

Education empowers us to address the root causes of conflict, equipping future generations with the tools they need to lead with wisdom, compassion, and integrity. At ATAFOM, we are dedicated to nurturing minds that will not only excel academically but will also champion the cause of unity and peace across the globe. By integrating diverse perspectives and promoting dialogue, we believe that every lesson learned brings us one step closer to a harmonious and interconnected world. Let us all embrace the transformative power of education as the true foundation for global peace.

INTERVIEW WITH AN INTERN AT ATAFOM UNIVERSITY INTERNATIONAL

Aminat Özkan

Intern at ATAFOM University International
From Türkiye and Studying in Moscow, Russia

1) What do you hope to achieve during your internship at ATAFOM University International?

During my internship at ATAFOM University International, I aim to gain valuable experience that will contribute to my personal and professional growth. I also look forward to receiving guidance from experienced investors for a successful project.

2) How is the internship aligned with your career goals?

I have always had an interest in design and have been actively learning as much as I could. Thanks to my internship at ATAFOM University, I am not only gaining detailed knowledge about it but also learning to work professionally. I believe this experience is an important step for my future.

3. Can you share any project or experience that demonstrate your skills and passion for graphic design and web development?

I am very interested in everything related to design because I have been painting for a long time, even before college.

4. What do you expect to learn from this internship, and how do you plan to apply it in your future career?

I expect to gain valuable insights from experienced professionals in the field I am studying, and I plan to apply these lessons to advance my future career.

5. How do you think this internship will support your academic, professional, and personal development, as intended by the ATAFOM University International Internship Programme?

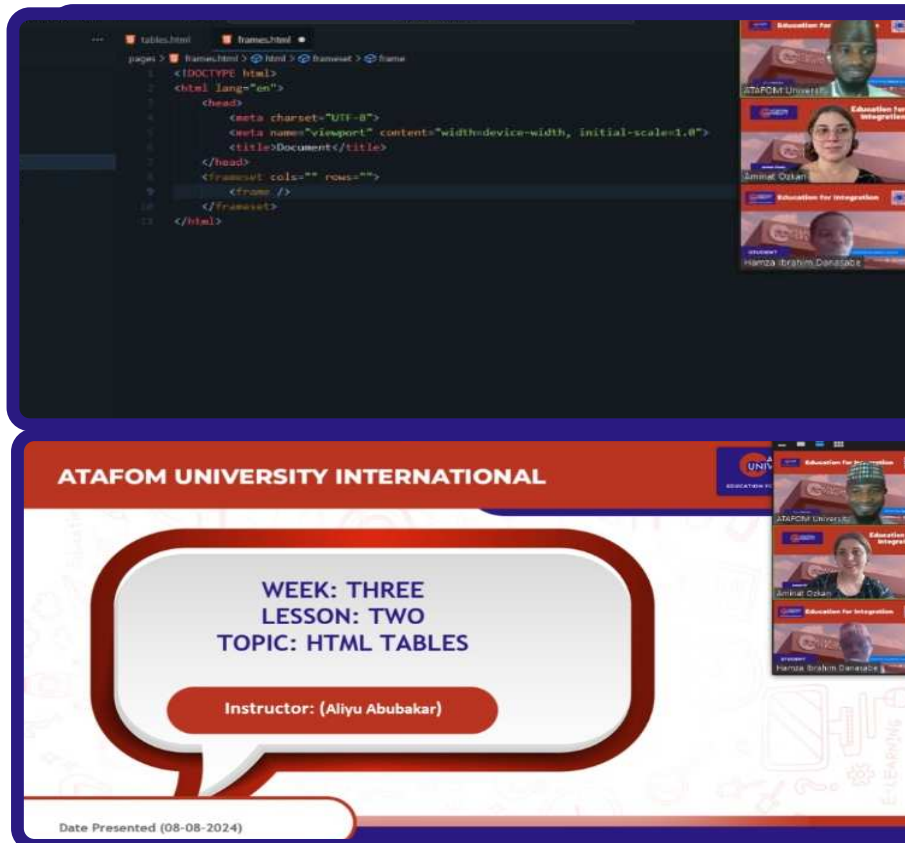

I believe this internship has contributed greatly to my development, thanks to the guidance and support from my mentors since the beginning of the internship process.

6. What do you hope to accomplish in the next one month, and how do you plan to make the most of your time here at ATAFOM University International?

Taking into account the experiences I have gained from my teachers and what I have learned so far, I aim to improve myself as much as possible by addressing my shortcomings and completing the tasks assigned to me.

7. Can you share with us your experiences and impressions of your time at ATAFOM University International so far?

My internship at ATAFOM University International has been a very positive experience so far. My teachers guide me through every step with clear examples to help me understand and ensure I have plenty of practice through regular assignments and homework.

8. How would you describe your working relationship with your project supervisors?

My project supervisors are very supportive. They make sure I understand every detail as we move forward. Although English is the language of my internship and not my mother tongue, they take care to explain and clarify things with patience.

Celebrating **A SPECIAL DAY**

Happy Birthday, Prof. Dr. David Grzan!

**Alles Gute zum Geburtstag - Bon Anniversaire -
Doğum Günün Kutlu Olsun - जन्मदिन की शुभकामनाएं -
Sefyeni Ubushiku Mwafyelwe**

ATAFOM University International is thrilled to extend heartfelt birthday wishes to Prof. Dr. David Grzan, the esteemed Dean of our Faculty of Initial Public Offering (IPO)!

As we celebrate his birthday, we also celebrate the remarkable journey ahead for our Faculty of IPO, where students are empowered to become future leaders in finance.

Join us in wishing Prof. Grzan a fantastic birthday filled with joy, appreciation, and connection. We look forward to many more years of success and inspiration under his guidance, and we are excited to see how his leadership will continue to shape the future of our students and the broader financial community.

Happy Birthday once again, Prof. Dr. David Grzan! Here's to a year filled with accomplishments, joy, and the realization of dreams.

Warm regards,

ATAFOM University International
